

Dear Parents,

Welcome to Bellarmine College Preparatory. This letter is to introduce you to our online health management system. This system is used to collect and store your student's health and medical information during his four years at Bellarmine. There are many benefits to this system including less paperwork for parents to complete each year and having more accurate information that is accessible to parents and the appropriate employees at our school. The management system we have adopted is called Magnus Health SMR (Student Medical Record). As this is a web-based system, you will have continuous access to your child's health record as well as the ability to make updates when needed.

To access your Magnus Health SMR Account: Please visit the school website and login into the Bellarmine PowerSchool Parent Portal (<https://powerschool.bcp.org/public/>) and click on the button titled "Magnus Health" on the bottom left under navigation.

We ask that you enter the health information required in Magnus Health SMR by June 1st, 2024, if your son is planning on participating in sports*. For all other students please complete by NO later than June 30th, 2024.

***Your son will not be allowed to participate in Bellarmine Athletics without a physical on file in Magnus. Please select "yes" to the question, "*Will your child be participating in athletics?*" under the conditional questions section to access the physical form and all other athletic forms.**

Mark Moreno
Director of Sports Medicine
