

Welcome Parents/Guardians,

On behalf of the Sports Medicine Department, we would like to welcome you to Bellarmine College Preparatory. This digital flyer introduces you to our online health management system, Magnus Health SMR (Student Medical Record).

Magnus Health is used to collect and store your student's health and medical information throughout his four years at Bellarmine. This system offers numerous benefits, including less paperwork for parents to complete each year and more accurate, easily accessible information for both parents and authorized school staff. As a web-based system, Magnus Health allows you continuous access to your son's health records and the ability to make updates as needed.

To access your Magnus Health SMR Account, parents will go through their Bellarmine Powerschool account which will be made available mid-May.

1. Bellarmine Parent Portal in [Powerschool](#) and click 

OR

2. Bellarmine Athletics Website ([Magnus Health Forms](#)) and click 

We ask that you complete ALL the requirements in Magnus Health by June 1, 2025!

Your son will not be allowed to participate in Bellarmine Athletics without a current physical on file in Magnus. Please select “yes” to the question, “*Will your child be participating in athletics?*” under the conditional questions section to access the physical form and all other athletic forms.
